

PoE 103 Splitter

➔ PoE 103 - Mini PoE Splitter Cable

Network Standards : IEEE802.3i BASE-T;

IEEE802.100 BASE-TX, IEEE802.3x flow control;

IEEE802.3af/IEEE802.3at

PoE Power : 15.4/25.5 & Power provided over pairs
12 & 36 and 45(+) & 78 (-), Cable: UTPcat.5 or higher

Output Power : 12V

Feature : Separate data and power coming over a
network cable for some network video products
without built in PoE supported

Data Rate : 10/100Mbps

Installation : Plug & Play

Led Indicator : Yes

Working Temperature : 0°C - 40°C

Storage Temperature : -10°C - 70°C

Operating Humidity : 20% - 85% Non-condensing

Features:

- ▶ Cuts costs and provides convenience
- ▶ Supports 12VDC
- ▶ Complete plug - and - Play installation,
no configuration setting or installation tool required
- ▶ Very compact size, lightweight
